Deepak Kumar Singh

Tech Lead – Mobility | Flutter · Android · iOS

Noida, India | +91-9660365200 | deepaksingh.65200@gmail.com | LinkedIn | GitHub | Medium

PROFESSIONAL SUMMARY

Mobile engineer with 6+ years of experience building Flutter and native Android applications for production. Currently Tech Lead – Mobility at Dropty Aviation, leading three Flutter apps: Dropty Passenger, Dropty Crew and Dropty Airport Crew. Delivered 20+ apps on the Play Store and App Store across mobility, education, healthcare, HRMS, travel and hospitality, with a focus on clean architecture, secure payments and real-time features.

PROFESSIONAL EXPERIENCE

Tech Lead – Mobility

Feb 2026 – Present

Dropty Aviation Facility Private Limited

- Lead development and maintenance of three Flutter apps on Android and iOS: **Dropty Passenger**, **Dropty Crew** and **Dropty Airport Crew**.
- Own application architecture, state management, REST API integration, Firebase, push notifications and payment workflows.
- Manage Flutter flavors, environment configuration, build versioning and CI/CD for development, UAT and production releases.
- Work with backend, product and QA teams to resolve integration issues and deliver stable releases.
- Review code, troubleshoot production issues, and improve performance and maintainability.

Senior Mobile Application Developer

Aug 2020 – Feb 2026

Alobha Technologies Pvt. Ltd. — Noida, India

- Designed, developed and maintained 20+ production apps in Flutter and native Android across education, healthcare, HRMS, travel, hospitality and enterprise.
- Applied MVVM with Provider, GetX and Riverpod, improving scalability, maintainability and performance by 20%.
- Integrated secure payment workflows through company-built backend APIs for Stripe, Razorpay, DPO, Tranzak, MTN Mobile Money and Orange Money.
- Built real-time features across multiple Flutter flavors: chat, booking flows, push notifications, role-based access control and WebSockets.
- Optimized UI rendering and performance for faster load times; handled testing, Play Store and App Store submissions and ongoing maintenance.

SKILLS & EXPERTISE

Languages	Dart, Kotlin, Java
Architecture	MVVM, MVC, MVP; Provider, GetX, Riverpod
APIs & Services	REST APIs, Dio, Retrofit, WebSockets, Firebase, FCM
Payments	Stripe, Razorpay, DPO, Tranzak, MTN Mobile Money, Orange Money
Delivery & Tools	Flutter flavors, CI/CD, Git, Postman, Android Studio, VS Code, Play Store & App Store releases

KEY PROJECTS

Dropty Mobility Apps – Passenger, Crew and Airport Crew

Three Flutter apps for Dropty's mobility services, built and released with flavors for dev, UAT and production, Firebase push notifications, REST integrations and payment workflows. **Dropty Passenger** is live on both stores; **Dropty Crew** and **Dropty Airport Crew** serve the crew side of the operation.

Stack: Flutter (Android + iOS), Firebase, FCM, CI/CD | Passenger: Play Store · App Store

Seek2Learn – Online Tutoring Platform

1-to-1 and group tutoring with live classes over a Video SDK, in-app chat, assessments, study materials and tutor booking. Stripe payments, Google Calendar scheduling with automatic Google Meet links, and Firebase push notifications for class alerts.

Stack: Flutter (Android + iOS) | Play Store · App Store

Guest House – Stay Booking & Management
Booking platform for guest houses, homestays and vacation rentals with dual roles: hosts manage properties and availability, guests browse, book and manage reservations. Tranzak payments, Dio REST integration, Firebase Cloud Messaging. Moved the app from an individual developer account to an organizational App Store account.
Stack: Flutter (Android + iOS) | Play Store · App Store

Alobha HRMS – HR & Payroll Management
HRMS and payroll app automating employee management, attendance, leave and compliance. Secure face-based punch-in/out with 100 m location radius validation for office and field employees.
Stack: Flutter (Android + iOS) | Play Store · App Store

AstroFast – Bus Ticket Booking
Bus booking app connecting multiple transport agencies in Cameroon: seat selection, instant e-tickets, automated departure reminders, and MTN Mobile Money and Orange Money payments.
Stack: Flutter (Android + iOS) | Play Store · App Store

ISOMT – Healthcare Education Platform
Learning app for therapists and clinicians with secure learning workflows and in-app purchases for paid courses and subscriptions.
Stack: Flutter (Android + iOS) | Play Store · App Store

Mesee – Doorstep Service Booking
Separate Customer and Service Provider iOS apps for discovering, booking and managing home services.
Stack: Flutter (iOS) | App Store

Enterprise MDM – Corporate Device Management
Android device management using Device Policy APIs: remote device lock, camera restrictions, third-party app control, enterprise policy enforcement and FRP provisioning.
Stack: Android (native) | Enterprise (private)
